Email: josies@co.wayne.in.us

County Commissioners:

Mary Heyob, President

Address: 401 East Main Street

City: Richmond

Zip Code: 47374

Plan Summary

Mission Statement: The mission of the Partnership for a Drug Free Wayne County is to promote, support and encourage the prevention, education, treatment and law enforcement of substance abuse and substance abuse related issues including alcohol, tobacco and other drugs.

History: Organized in 1987, the local coordinating council in Wayne County is completing 18 years of service in the prevention, education, treatment, intervention, justice and law enforcement of alcohol, tobacco and other drug issues. In 1995, the LCC received Articles of Incorporation under IC 23-17-1-1 et seq. for "any lawful purpose." The Partnership operates as a community coalition with the membership comprised of any interested citizen willing to serve their community in this area. The membership has evolved over the years to include teachers, school counselors, substance abuse program directors, program counselors, clergy, judges, attorneys, law enforcement, not for profit agencies, senior citizens, government officials, doctors and community members.

The Partnership operates with a Board of Directors and employs a part-time Executive Director. The Wayne County Auditor's office is responsible for the fiscal operations of the Partnership. Upon the recommendation of the funding committee, the Wayne County Commissioners allocate funding on an annual basis and the County Council appropriates the funding. The Auditor's office then distributes checks to awarded agencies. The Partnership on rare ocassion has awarded funding mid-year for worthwhile programs, following the same protocol.

The Partnership has been instrumental bringing new initiatives that have been an intregal part of our Comprehensive Plan for several years. Teen Court was started as an alternative for juvenile probation officers for non-violent first time offenders. The Court operated for several years through the Probation Department. Hope House Addiction and Recovery Services is a treatment program housed at the Richmond State Hospital serving indigent clients with substance abuse. The Hope House was modeled after "The Healing Place" program in Louisville, Kentucky. These two initiatives were brought to Wayne County through our Comprhensive Plan.

In 2005 the Partnership served as the lead agency for a Drug Free Communities Grant administered by DOJ. Collaboration of several agencies and school districts worked together to receive this funding. In April 2006 we will apply again for this grant through SAMHSA.

The Partnership is in the final stages of completing a comprhensive strategic plan for implementing a comprhensive prevention approach throughout Wayne County. This document will serve as a guide to prevention efforts for several agencies.

Summary of the Comprehensive Community Plan: The Partnership for a Drug Free Wayne County works each year to accomplish its mission statement through our members and the organizations they represent, the grantees and funded programs, as well as a diverse group of citizens and programs designed to address ATOD issues. Our membership has provided a stable foundation for over 18 years in the ATOD arena.

Our members represent Education, Law Enforcement, Judiciary, Treatment, Civic orgnaizations, Business, Government, Prevention, Faith Based Intervention, and Medicine. In 2005 we have focused on brining Youth into our local cooridnating council for a much needed representation.

The Partnership submitted a new comprehensive plan in 2003, with updates in 2004 and 2005. The new plan for 2006 contains some of the same problem statements with revised strategies. We have also included new language in our problem statements that addresses new ATOD in Wayne County. For example, in Wayne County we are not experiencing the rapid growth of methamphetamine like other parts of the state, but we are expeiencing an increase in drug diversion in the area of prescription drugs. The new plan focuses in this pharmaceutical area.

This plan is written with a strong emphasis on identified risk and protective factors for Wayne County. We are utilizing the Risk Factor / Protective Factors Approach to Positve Youth Development, a research based strategy approved by the Council for Substance Abuse Prevention (CSAP). Risk and Protective factor-focused prevention is based on a simple premise: To prevent a problem from happening, we need to identify the factors that increase the risk of that problem developing and then find ways to reduce the risk. At the same time, we must identify those factors that buffer individuals from the risk factors present in their environments and then find ways to increase the protection. Risk factors and protective factors exits in our community, family, school and peer/individual. Data collected for Wayne County Youth Development Plan and Safe Schools Healthy Students Initiative are organized around this model. As a participant in the community coalition, the Partnership has organized this plan around the model.

Some ATOD concerns remain for Wayne County. Our Middle School students reported in the 2005 IPRC survey a higher monthly consumption rate than the state average. This being the case we need to continue focusing on prevention/education initiatives in the middle schools and elementary schools. A collaborative effort is under-way in Wayne County to implement "A Comprehensive Prevention Approach" as deifned by the Development Research Programs, Inc. in Seattle Washington. According to this model, "the foundation of an effective prevention program is a comprehensive, community-wide approach that addresses risk factors by enhancing protective factors base on established and field-tested research." As defined by this approach, Wayne County will work to implement strategies designed identified throughout the plan.

Treatment/Intervention options in Wayne County has increased, both for adolescents as well as adults. Collaboration between agencies is paramount when the need exists to offer treatment options to the homeless, the indigent, and to every other socio-economic

group represented. Individuals who do not have healthcare cannot afford for-profit treatment centers. Wayne County has programs designed for these individuals. Providing financial support to these agencies is a priority for our community.

Our law enforcement agencies take extraordinary steps to make our communities a safer place to live, work and raise a family. Participation in the Governor's Council on Impaired and Dangerous Driving enforcement, drug investigations and arrests, diversion programs, TRIAD for senior citizens to surrender expired or unused medication are only a few initiatives that our law enforcement agencies participate in.

It is our obligation to work every strategy in this plan to reduce the issues our citizens face with ATOD. This plan is a working document that allows us to distribute funding in a fair and equitable manner that best serves the citizens of Wayne County.

Problem Identification

Problem Statement #1: The misuse and abuse of ATOD by youth and adults has become a serious issue in Wayne County.

Supportive Data:

- Dunn Mental Health received 33 referrals from DFC, Probation, and other community agencies for their Safe Abuse Subtle Screening Inventory Assessment program, serving adolescents ages 13-18. This program provides treatment and education.
- Senior volunteers also reporting that senior citizens are abusing alcohol during peak times of depression, i.e. death of a spouse and the holidays.
- In 2005 Hope House Addiction and Recovery Center in Richmond served 530 male clients in the ATOD treatment center.
- In May of 2005 Wayne County collected over 700 pounds of unused medications and in October collected over 800 pounds of unused medication.

•

Year 1 Update:

- Dunn Center received 51 referrals for SAFE between January and September.
- Hope House served 85 new clients between January and September.
- In Spring 2006, 450 pounds of of prescription medication was collected and destroyed.
- It appears theres was anly anecdotal evidence regarding alcohol abuse by senior citizens following the death of a spouse and the holidays. This statement will be deleted.

	•			
	•			

Objectives:

- Provide semi-annual program to collect unused medication and prescriptions in Wayne County.
- Provide support to programs to the community regarding ATOD's of abuse.

- Encourage collaboration between agencies to share information regarding diversion efforts. Law Enforcement agencies, local physicians and their staff, pharmacists and health care providers all who have a direct connection to prescription drugs.
- Establish a system to collect baseline data on criminal filings for specific ATOD charges.
- Provide diversion training to at least 75 physicians; 25 pharmacists; 50 pharmacy technicians and an undetermined number of registered nurses and licensed practical nurses.
- Support implementation of new treatment programs such as Dunn Mental Health's Non-Intensive Treatment Intervention that meets the Patient Placement Criterial for Youth published by the American Society of Addiction Medicine (ASAM).
- Support the implementation of programs that treat ATOD.
- Support residential treatment opportunities.

•

•

•

•

Year 1 Update:

- 100% participation by pharmacies in education regarding drug diversion.
- No system for collecting baseline data has been established.
- Dunn Center has established "Teen Intervene" and "SAFE" with LCC money.
- Afternoons R.O.C.K. was expanded to 4th graders with LCC funding.
- 450 pounds of unused medications were collected and destroyed with LCC funding.
- Hope House served 85 men in the Therapeutic Community with LCC funding.

	runding.
Ye	ear 2 Update:

	•
	•
	•
Fi	nal Update:
	•
	•
	•

Goals:

- Decrease by at least 3% per year the number of controlled substance charges filed in Wayne County
- •
- •
- •
- •

Year 1 Annual Benchmarks:

- In 2005 there were 184 controlled substance charges filed.
- In 2006 there were 167 controlled substance charges filed. That is a 9% decrease from the previous year.
- •

Year 2 Annual Benchmarks:

- •
- •
- **Final Report:**
 - •
 - •
 - •
 - •

Problem Statement #2: The safety of Wayne County has been affected by the significant rate of crime and motor vehicle crashes related to ATOD issues.

Supportive Data:

- In 2004 the Richmond Police Department investigated 44 alcohol related motor vehicle crashes that resulted in an arrest.
- In 2005 the Richmond Police Department investigated 45 alcohol related motor vehicle crashes that resulted in an arrest.
- In 2005 the Wayne County Sheriff's Department erradicated over 400 marijuana plants in Wayne County. DEA estimates the street value at over \$ 600,000.00.
- Richmond Police and Wayne County Sheriff's Department Canine Units
 participated in over 12 area school sweeps with canine units. Some of these school
 sweeps were outside of Wayne County. In Wayne County, canines made positive
 indications. However, no arrests were made.

•

Year 1 Update:

- As of September 30, 2006 500 marijuana plants have been eradicated.
- As of November 1, 2006 Richmond Police Department had investigated 35 accidents that were alcohol related.
- No drug arrests were made as a result of the sweep of Richmond High School by the drug-sniffing dogs.

Year	2 U	pdate:
------	-----	--------

- •
- •
- •

Final Update:

- •
- •
- •

Objectives:

- Provide financial assistance to area law enforcement agencies to operate enforcement initiatives to reduce the number of impaired motorists operating on Wayne County roadways.
- Increase community awareness of the dangers associated with operating while under the influence.
- Provide support to programs offering prevention/education training for new drivers in driver's educations programs about the risks associated with operating while under the influence.
- Provide support for programs and projects aimed at reducing accidents during high-risk events and time periods, such as spring break, proms and graduations.
- Encourage all area law enforcement agencies to participate in the Governor's Council initiatives to reduce drunk driving.
- Provide support dor Wayne County marijuana eradication efforts.
- Support the identification and eradication of marijuana-growing operations.
- •
- •
- _

Year 1 Update:

- Fatal Vision goggles continue to be used thoughout Wayne County schools and businesses promoting a substance free lifestyle.
- 1 Prom and 4 after Proms were funded.
- Wayne County Sheriff's Office participated in "Operation Pullover." No application for funding were received to support this patrol.
- Helicopter time rental was supported by LCC funds for marijuana eradication.

_

Year 2 Update:

•

•

-

Final Update:

•

•

•

Goals:

- Increase the amount of marijuana eradicated in Wayne County in order to improve the safety and quality of life for all Wayne County citizens through reducing the availability of ATOD.
- Reduce the number of alcohol related motor vehicle crashes by 3% in each year 2006, 2007 and 2008.

•

•

•

Year 1 Annual Benchmarks :	Year 1	Annua	Bencl	hmarks
-----------------------------------	--------	-------	-------	--------

- There was a 22% decrease in the number of alcohol related crashes in the city of Richmond.
- There was a 20% increase in the number of marijuana plants eradicated in 2006.

•			
•			
•			
•			

Final Report:

•			
•			
•			
•			

Problem Statement #3: A significant number of youth using ATOD.

Supportive Data:

- According to the IPRC data, Elementary Expulsion rates were 327 in 2002; 596 in 2003; and 697 in 2004.
- According to the IPRC data, Secondary Expulsion rates were 2244 in 2002; 1606 in 2003; and 2009 in 2004.
- According to the IPRC data, the number of students who dropped out of school were 131 in 2002; 128 in 2003; and 139 in 2004.

•

Year 1 Update:

- Juvenile Probation received 216 drug and alcohol referrals for 2005.
- Juvenile Probation received 209 drug and alcohol referral for 2006. That represents a 3% decrease from 2005.
- Schools in Wayne County do n ot participate annually in the IPRC survey. No data available for this reporting period.

•

Year 2 Update:

- 2003 7.4 10.8 12.4 12.3 15 16.3
- 140 10-14 year old youth were served in the Afternoons R.O.C.K. in Indiana prevention program in 2004-2005 school year and 175 in 2005-2006 school year.

Objectives:

- Identify at-risk youth for substance abuse, defiant behavior or violence through a collaboration with peer helpers, mentoring programs, and community partnering programs.
- Support advocacy efforts to encourage integration of younger students into targeted early prevention activities.
- Support mentoring programs for students in grades K-12.
- Support the continuation of drug education.
- Collaborate with local agencies to increase awareness of drinking and drug use targeting specific events such as spring break, prom and graduation.
- Support programs that offer positive alternatives to youth in place of ATOD choices.
- Provide prevention/education material to all Wayne County High Schools that focus on underage drinking and the consequences of minor consuming, including binge drinking.
- Encourage all law enforcement agencies to offer awareness programs in drivers education classes, health classes or other classroom settings.
- Support treatment programs for Wayne County youth.

•

•

Year 1 Update:

- 175 5th thru 8th graders participated in Afternoons R.O.C.K. in Indiana.
- 67 girls participated in Friendly PEERsuasion.
- 28 adults and 106 youth participated in Camp Clements DARE Camp.
- 716 youth had contact with Wayne County Peer Helpers.
- 4th graders were added to Afternoons Rock in Indiana.
- 306 students had to outside resources by Communities in School. Funding was provided by the LCC.
- The LCC partially funded 4 After-Prom events and 1 Prom.
- Dunn Center made a 2 hour presentation on substance abuse issues to interested parents in the month of October.
- Dunn Center has "Ten Intervene" an early intervention program.
- Wayne County Sheriff's Department presents DARE in Wayne County elementary schools.
